

Credit risk management

Welcome to our FACT newsletter

FACT is a fully customisable credit risk management solution ideal for financial analysis, rating, modelling and credit application workflows.

FACT solutions are completely flexible and customised for individual needs. You can integrate any data source whether it's your own internal or external data.

We're constantly enhancing our products. This newsletter gives you some introductory information about FACT and highlights some recent developments in FACT V.4.

We'd be delighted to talk you through FACT and give you a tailored demonstration - please [get in touch](#) if you have any questions, or want to see any of FACT's new features.

A handwritten signature in black ink, appearing to read 'Claude-Vincent Gillard'.

Claude-Vincent Gillard
Director of Banking Products
Bureau van Dijk - FACT

Case study

Read how a major bank has implemented FACT [here](#).

How we're enhancing FACT

We're continually enhancing FACT so we can produce the most powerful and flexible solution.

Recent enhancements include:

- More report layout design options
- Flexible financial reports - we've enhanced the customisation options
- More options for archiving reports into different formats simultaneously

Click [here](#) to see a complete list of our product changes per release.

We'd be happy to demonstrate these enhancements to you. [Email us](#) to book your demo session.

FACT User Group

Explore FACT in detail and network with peers

Our User Group combines a range of industry speakers, tailor-made credit workshops and sessions from our partners. This event is the ideal opportunity to learn more about how our current customers are using FACT and hear from and network with senior risk professionals.

The next User Group is at the Meridien Hotel in Brussels on 8-9 of November.

We're currently planning the agenda. If you have any questions or topics you'd like to see covered please [email us](#). We'll be in touch with booking arrangements shortly. You can register your interest in attending [here](#).

Access our library of FACT literature

If you'd like to find out more about FACT, its functions and the risk models supported you can browse our library of literature here.

Orbis is a global database covering around **100 million public and private companies** around the world.

Due to its wide coverage it's the **ideal source of information to use with FACT**.

Information available includes:

- Financial institutions reports are provided in specific financial formats
 - Company financials in a standardised format - listed companies in a more detailed format
 - Options to create your own ratios and bring in your own data fields
 - Directors and contacts
 - Financial strength indicators
-

[Bankscope](#) is **the** product for researching banks.

According to a recent review, Bankscope "has three standout areas in regard to content: global coverage, private banks coverage and standardisation."

Bankscope is a **comprehensive source of intelligence on banks across the globe**, and now includes banks' financial statements plus ratings from various agencies, including Moody's, Standard & Poor's and Fitch.

Bureau van Dijk publishes a range of business intelligent products. Visit the corporate site [here](#).
